Summary

Next and React Developer with expertise in creating dynamic, responsive, and user-friendly applications using React and modern JavaScript technologies. Skilled in working with REST APIs, ensuring seamless integration with backend services. Passionate about delivering seamless user experiences, staying updated with emerging technologies, and continuously enhancing skills through self-development and practical projects.

Education

Bachelor's Degree of Arts in Egyptology, Alexandria University   **2023 : 2019**

Technical Skills

• **Next.js**	• JavaScript (ES6)	• HTML5	• CSS
• **React**	• TypeScript	• Git	• SCSS
• React Router	• Ajax	• GitHub	• Bootstrap
• Redux	• JS OOP	• GitLab	• Tailwind CSS
• Redux Toolkit	• Formik	• Yup	• Shadcn/UI

Work Experience

MB Alfa – Remote (HQ: UAE)   Internship (Apr 2025 - Jun 2025) – Full Time (Jun 2025 - Present)

Key Achievements:

• Made project responsive, added dark mode, and enabled dynamic theming.

• Fixed multiple bugs and added new pages using React.js.

• Migrated state management to Redux Toolkit with async thunks.

• Converted project to TypeScript and added proper typings/interfaces. And Refactored state management architecture from Context API and prop drilling to Redux Toolkit.

• Developed a scalable Chat App (initially using Loveable, then manually enhanced).

Tech Stack: React.js, Redux Toolkit, TypeScript, REST APIs, Formik, Yup, Axios, Tailwind, Git, GitLap.

Projects

1) Next-amazon   **Demo - GitHub Repo**

Description: An e-commerce website like Amazon.

Features: Single-page app, authentication, Shopping Cart, Wishlist, Responsive Design.

Technologies: Next, Pages Router, Redux, TypeScript, Tailwind CSS.

2) To-Do_List   **Demo - GitHub Repo**

Description: Interactive to-do list app with authentication, quotes API, and animated UI for task tracking.

Features: Single-page app, Auth, CRUD, dark mode, animated backgrounds, Responsive design, random quotes.

Technologies: React, React Router, TypeScript, Redux Toolkit, Axios, Tailwind, Daisyui, Formik, Yup, Bcryptjs, REST API.
